

## **My Travel Pouch 100ml Hand Sanitiser Gel**

### ***Certifications***

Our product complies with European **BS EN1276** & **BS EN 1500** standards.

**BS EN 1276** is the European standard for the bactericidal activity of disinfectants as proof of effective infection control against harmful microorganisms. **BS EN 1500** is the European standard test method that evaluates the efficacy of a hygienic hand sanitiser by measuring the number of visible bacteria remaining on the fingertips after contamination and hand sanitiser exposure.

### ***How do I apply the sanitiser gel to ensure it works effectively?***

1. Apply a large pea size of sanitiser onto the palm of your hand.
2. Rub your palms with fingers.
3. Rub the back of each hand with your palm.
4. Rub your palms together.
5. Rub your palms with your knuckles/nails.
6. Rub your thumbs together.
7. Rub your wrists with fingers.
8. This process should last at least 30 seconds.
9. The sanitiser will then dry itself, leaving a fresh feeling and clean sanitised hands.

### ***How long will the sanitiser last?***

It has been advised that you should wash your hands at least every hour, and use sanitisers after your hands come in contact with surfaces frequently which would have also been touched by other people.
